DISPLAY AND EXHIBITION SOLUTIONS WORLDWIDE

**NIMLOK'S TRIED AND TESTED 32MM TUBE AND CLIP SYSTEM REMAINS AN EXTREMELY POPULAR PRODUCT.**

The robust design and construction ensures that these classic displays give decades of hassle free service.

- Hard wearing
- Highly flexible
- Easily reconfigured
- Suitable for rugged off the floor displays
- Full range of accessories

- SETUP:**
1. Twist and lock the clip into the channel on the side of the panel.
  2. Insert joint tube between large tubes and twist and lock, assembling the tubes to the required length.
  3. Clip the assembled tubes into the panels and build stand as required.

## COLOUR RANGE

Poles and panel frames are available silver anodised or powder coated to match or contrast with fabric colours. Panels are covered both sides in loop nylon.
